DJ MOUSE

COMPUTER DJ IN A BOX

PC & MAC COMPATIBLE

No more CD player, No more Mixer, just your laptop and DJ Mouse.

DJ Mouse is a complete pack which includes :

- ► The incredible DJ mouse,
- ► A DJ software for MAC/PC: Deckadance LE
- ► A special slipmat Mousepad.

Just simply open your playlist, play and mix your MP3s. The Automix and Beat match will let you create the perfect mix, without the science of a professional DJ. DJ mouse features a XXL jog wheel to move all the volume faders without clicking like a normal mouse, but also it will let you scratch your MP3s and spin like a real turntable. Mixing your music will never be that easy with all the waveforms, loops, cue and special effects that you can create in real time.

DJ Mouse. Play it, Mix it and Love it.
Not only for DJ .... Only for you.
